DESCRIPTION

- High technology impact mechanism delivers 510 N.m torque.
- Great balance of power and ergonomics to offer higher power than 10.8V wrenches in spaces that high-torque wrenches cannot reach.
- High visibility with built-in LED controlled automatically.
- Variable control trigger for improved speed control.
- Tough "soft grip" composite handle for insulation and resistance to chemicals and grease.
- Protection bumpers built into the machine casing.
- 18V 2.0Ah battery packs with DEWALT® technology are interchangeable with other 18V FACOM and DEWALT® slide pack products.
- Heavy duty, ToughSystem kitbox is IP65 rated to protect contents in all conditions.
- Separation torque 510 N.m.
- Impacts per minute 3000 ipm.
- No-load-speed 2000 rpm.
- 1/2" male square drive.
- Voltage 18V.
- Battery capacity 2.0Ah.
- Vibration 24m/s²/a.
- Vibration 5.1m/s²/a.
- Acoustic pressure 94dB(A).
- Acoustic power 105dB(A).

FEATURES

Symbol	CL3.CC18SD2
Wyjście	1/2"
Nm max	510
Napięcie akumulatora [V]	18
Obroty [obr/min]	2000
