E-Access Roller Cabinet with dedicated mobile app for ultimate workshop security

Product page link > <https://facom.com.pl/en/17329-jet8gm3eacc-roller-cab-e-access-8-drawers-black.html>

DESCRIPTION

Providing maximum workshop security for tools, accessories and other valuable assets, FACOM has introduced the innovative E-Access Roller Cabinet. This smart and flexible solution gives workshop managers complete control over employee access to the contents of the mobile storage cabinets, keeping all items safe from theft or unauthorised use.

Easy to manage, use and maintain, the FACOM E-Access Roller Cabinet is ideal for use in any type of automotive or industrial workshop environment, and is available in a choice of seven or eight drawer units.

Each cabinet within the workshop can be itemised and named via the E-Access mobile app using the enrolment card supplied, and users can be exclusively registered and granted/denied access rights, as appropriate.

The app also offers the ability to track information on up to 100 users, including the date, time and name of anyone who has opened a particular cabinet. In addition, the app allows the manager to view the number of roller cabinets that are currently accessible, and to monitor the battery charge level of each unit, to ensure there is sufficient power or if a battery replacement is required.

QUICK AND SECURE ACCESS

- Opening & Closing: quick opening, no special mechanism is needed to switch on, you simply pass the card in front of the reader
- Keep all items safe from theft or unauthorized use
- Automatic closing: if you have to leave the workshop, even for a few minutes, your tools remain safe
- Grant or remove access in few seconds
- Provide easily the right people with the right access at the right time

EASY TO MANAGE

- Traceability: by whom and when the cabinet has been opened
- Flexibility: you can set up the auto-locking time
- Information: you can check the level of the charge of the batteries

EASY TO USE

- Standalone solution
- Choose your solution: serial card, wristband or key fob
- Efficiency: managers can drive up to 100 users

EASY MAINTENANCE

- Tested for 10 years use (50.000 openings)
- Battery life: 3 years (4 Standard AA batteries)
