DESCRIPTION

- First FACOM premium ratchet with 'True High Tooth Count'.
- Very high strength without maintenance, regardless of working conditions.
- 100-teeth mechanism for 3,6° increments.
- Slim and compact head design optimised to reach within awkward or tight spaces.
- Innovative inverter mechanism positioned directly on the handle.
- Versatile, time-saving design enables efficient one-handed operation.
- Dustproof head and IP54 certified for extensive product life.
- Bi-material handle ensures maximum grip and comfort in use; resistant to workshop chemicals and solvents.
- The hole in the handle: allows to attach when working at heights.
